

NEWS RELEASE

Tangshan Tanglong Materials Co., Ltd – Construction of Second Line with Planned Capacity of 600,000 MT of Ground Granulated Blastfurnace Slag ("GGBS/GGBFS")

4 June 2007

The Board of Directors of EnGro Corporation Limited (the "Company") is pleased to announce that one of its joint ventures, Tangshan Tanglong Materials Co., Ltd has obtained the necessary approval to set up a second line to produce 600,000 MT of Ground Granulated Blastfurnace Slag ("GGBS" / "GGBFS") annually.

Tangshan Tanglong Materials Co., Ltd is a company in which the Company has 40% interest. It is principally engaged in the production of GGBS, a green cementitious material for producing high performance concrete.

The new line is scheduled to commission by mid 2008. Together with the current existing capacity, the annual production capacity of Tangshan Tanglong Materials Co., Ltd would increase from 600,000 MT of GGBS per year to 1,200,000 MT of GGBS per year.
