

NEWS RELEASE

EnGro's "Green Label" products increases to six and more to come

24 February 2009 – Subsequent to achieving Green Label certification for our GGBS products in 2007, we added three more items to EnGro's list of Green Label products. To-date, we have a total of six products certified by the Singapore Environment Council (SEC) under the Green Label banner; and we have more in the pipeline.

The latest addition to our Green Label products is the "DuraCrete" brand of eco-friendly ready-mixed concrete; further attesting our strong support for the still-nascent Green Building movement in Singapore.

ECO-FRIENDLY BUILDING MATERIAL			
GGBS	BLENDED CEMENT	ULTRA-FINE SLAG POWDER	CONCRETE
 (GreenLabel ID no: 022-003) (GreenLabel ID no: 022-009)	 偉聖 BUILDING DURABILITY (GreenLabel ID no: 022-003)	P4246S (GreenLabel ID no: 022-003)	P8000 (GreenLabel ID no: 022-003)
	P4246 (GreenLabel ID no: 022-003)		DuraCrete (GreenLabel ID no: 022-009)
	P146 (GreenLabel ID no: 022-003)		

We are proud to receive the Green Label award as recognition of EnGro's efforts in building durability with the environment in mind.

NOTES

About EnGro Corporation Limited

EnGro has established itself as a leading specialty cement producer in Singapore. Since 2005, the Group has strengthened the supply-chain by leveraging on its GGBS joint venture production base in China coupled with its Pulau Damar Laut bulk-terminal cum logistics services undertaken by Top-Mix ready-mix concrete operations. The extended supply chain allows EnGro to meet stringent requirement for specialty cement and high performance concrete supply. With this integration, EnGro is able to undertake supply of voluminous quantity timely to prestigious mega projects. As the first local cement company granted the Singapore Green Label for its eco-friendly VCEM brand of GGBS products, EnGro is well-positioned to contribute to the growing green building needs of the regional construction industry. EnGro has built 2 core businesses, namely the specialty cement and the specialty polymer. Operationally, it is driven by these 2 growth engines supplemented by evergreen venture capital (VC) investment activity in technology-driven businesses.

About Singapore Environment Council

Established in 1995, the Singapore Environment Council (SEC) is the umbrella organisation for green groups in Singapore. The Council champions activities and needs of all who are concerned about protecting the environment. SEC's core activities include publicising key green issues, co-ordinating national projects and leading island-wide response to major environmental challenges. Over the years, SEC has given strength and bearing to the environmental movement here. The Council is an independently managed, non-government, non-profit organisation, with the status of an institution of public character. Further details are available from www.sec.org.sg
