

## NEWS RELEASE

# Singapore Green Building Council (SGBC) accredits EnGro's eco-friendly blended cement materials with the Singapore Green Building Product (SGBP) label

**SINGAPORE, 27 Apr 2011** – EnGro received the Singapore Green Building Product (SGBP) label from the Singapore Green Building Council (SGBC) for its blended cement materials which contain EnGro's eco-friendly low-carbon ground granulated blastfurnace slag (GGBS) material.

EnGro's Blended Cement Product containing GGBS	
Brand	Rating
P197-4S	✓✓✓ (Excellent)
P4246S	✓✓✓ (Excellent)
P4246	✓✓✓ (Excellent)
P197A	✓✓ (Good)
P197B	✓✓ (Good)

The use of GGBS in EnGro's blended cement materials complies with the highest criteria set by the SGBC for the SGBP labelling scheme. Hence, EnGro's blended cement materials were able to garner up to "3 ticks" of the SGBP labelling scheme which carries the "Excellent" rating.

EnGro is proud to receive the SGBP label as recognition of our efforts in promoting the concept of building sustainability. Our blended cement materials with the SGBP label will help buildings qualify for higher points under the BCA Green Mark rating system.

## **Notes:**

### **About EnGro Corporation Limited (“EnGro”)**

EnGro has established itself as a leading specialty cement producer in Singapore. Since 2005, the Group has strengthened the supply-chain by leveraging on its GGBS joint venture production base in China coupled with its Pulau Damar Laut bulk-terminal cum logistics services undertaken by Top-Mix Concrete ready-mix concrete operations.

The extended supply chain allows EnGro to meet stringent requirement for specialty cement and high-performance concrete supply. With this integration, EnGro is able to undertake supply of voluminous quantity timely to prestigious mega projects. As the first local cement company granted the Singapore Green Label for its eco-friendly VCEM brand of GGBS products, EnGro is well-positioned to contribute to the growing green building needs of the regional construction industry.

EnGro has built 2 core businesses, namely the specialty cement and the specialty polymer. Operationally, it is driven by these 2 growth engines supplemented by evergreen venture capital (VC) investment activity in technology-driven business and selective property development projects.

EnGro is proud to be associated with the Friends of Building Sustainability (FBS) community of companies that initiate industry-led activities to spur the global green movement.

### **About Singapore Green Building Product Certification**

The Singapore Green Building Council (SGBC)'s Singapore Green Building Product (SGBP) Certification Scheme, was launched on 14 September 2010 as a key initiative to support the building industry in the drive towards sustainability and environment- friendly built environment.

The Certification is the 1st dedicated green building product certification scheme to support the BCA Green Mark Scheme.

It is a Scheme with criteria formulated by more than 90 building professionals, assesses the level of environmental friendliness of building products in areas of safety, health, performance efficiency and environmental protection.

The certification will provide consumers, building industry stakeholders, and government procurement system an excellent listing of robustly assessed and certified green building products.
